SUBJECT: Talking Points for DDCI's Meeting with
DepSecDef

1. Attached are talking points on two subjects. One, MODE, you were expecting; the other is a bonus.

2. Part of the MODE package, is a copy of the paper prepared by the NSC which the meeting on the 29th will address. We are working on a more detailed response to that paper, due Monday. These talking points reflect a quick and dirty review, so that we could prepare something for the meeting tomorrow.

3. The single page on FY 1982 budget changes is something you were not expecting. We have heard from staff members on the Hill and elsewhere that there could be a problem similar to one that occurred in the spring. We recommend that Admiral Inman consider raising the subject in his meeting tomorrow in the hopes of precluding confusion in the future.

4. Please call me if you have any questions about either paper.
